

Why Fraser-Cascade OPEN LEARNING (FCOL)?

There are many reasons students seek online and blended learning options. Some students...

- require a **more flexible schedule** due to participation in athletics or performing arts, or because of health concerns, work schedules, or family commitments.
- may want to take a core course that they have missed, **improve their mark** in a course already taken, or **accelerate their progress** so they can take more challenging or interesting electives.
 - simply prefer to work online.

Online learning is also **ideal for adult learners**, who need to fit course work into their already **busy lives**.

The purpose of the FCOL program is to **inspire learning through broad and imaginative connections**. FCOL's vision is to build a 'backbone', **district-wide program** that empowers learners to confidently explore their worlds with **curiosity, creativity and compassion**.

PROGRAM OPTIONS

Online Learning

This program will be for students **grades 4-12** wishing to enroll in **full-time online courses**. Classes will be delivered online with teacher/staff support provided through the use of technology and/or face-to-face connection, depending on the needs of the student. Assessments will be invigilated and taken in person.

Blended Learning

This program will be for students from **grades 7-9**, and will incorporate **outdoor and placed-based activities** that students will attend in person. Core courses will be provided through a **blend of online and face-to-face instruction**.

Online Adult Learning

This program will be for **adults wishing to graduate or upgrade high school courses online**. Courses will be delivered online with teacher/staff support provided through the use of technology and/or face-to-face connection, depending on the needs of the student. Assessments will be invigilated and taken in person.

Complementary Courses

This program is for secondary students wishing to enroll in **online courses** beyond their schools course offerings and/or time table.

REGISTRATION

Parents of students enrolling in online learning will register their children; adults will register themselves.

Space in blended learning will be limited. Students and parents will be required to complete an **interview with the principal** before registration is finalized.

Registration of students enrolled at another school will require prior **consultation with their school principal**.

TECHNOLOGY

- Access to internet capable of streaming video
- Computer or tablet with up-to-date browser
- Word processor (not required for Math courses)
 - Printer recommended
- Webcam recommended
 - Headphones
